

# DIAskiving

## INDUSTRY

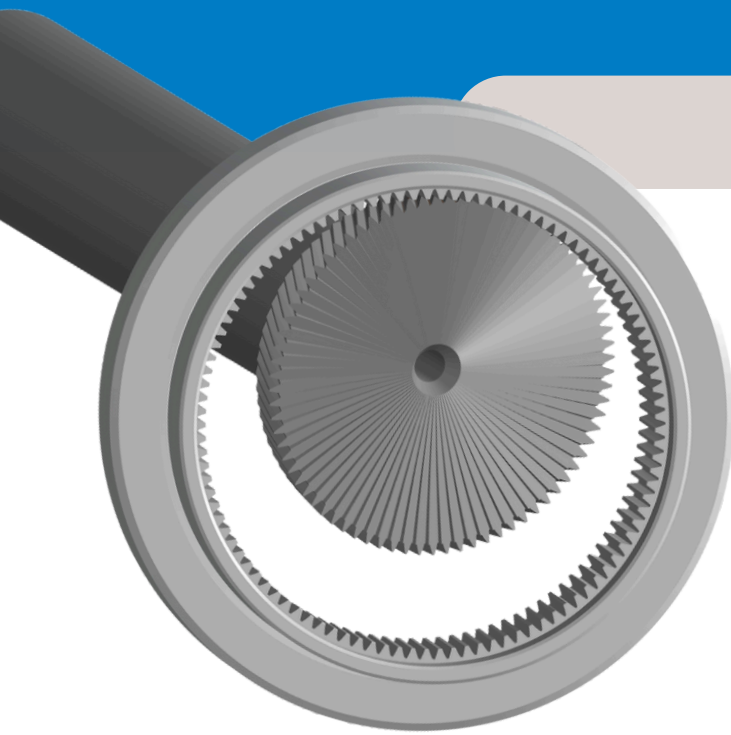

Planetary gearbox for aeronautical industry

## MACHINE

Affolter gear cutting machine AF160

## MACHINED MATERIALS

Stainless steel 1.4545

## DESCRIPTION

Stainless steel internal gear for aerospace gearbox machined by high productivity Power Skiving technology on the Affolter AF160 CNC gear cutting machine

## FEATURES

### Tools:

DIaskiving tool m0.265 Z78 AP20° Da 22.721  $\beta$ 20°

### Features and benefits:

Present the effectiveness, in terms of quality and productivity, of power skiving technology for machining of internal gear.
