

Grinding Tools

INDUSTRY

Medical industries

MACHINE

Strausak One

MACHINED MATERIALS

Tungsten carbide

DESCRIPTION

Production of conical thread milling cutter for the production of external screw threads in the medical field

FEATURES

Tools:

14E1 65,0° Ø125,0 D76 C125 M265
14E1 65,0° Ø125,0 MD16 C125 M265
1V1 45,0° Ø125,0 D76 C100 MNTPlus
14K1 30,0° Ø150 U2,7 D126 C100 M265
1V1 45° Ø125 T12 X8 POLISTAR

Application description:

High-end technical solution in the medical sector that enables the further development of modern implant medicine.

The manufacture of such special tools is subject to high demands in terms of process knowledge and the grinding wheels used. Our own Abrasifs products help to fulfill these requirements.
